Social Procurement Framework. Victoria is committed to social procurement and has established the Social Procurement Framework. By using the Government's buying power, the Framework enables buyers and suppliers to deliver social, economic and environmental outcomes that benefit the Victorian community, the economy and the environment.

Veil - Framework

The Veil Framework is a collection of tools designed for use during offensive security testing. When the time calls for it, Mandiant's Red Team will use the Veil-Framework to help achieve their objective. The most commonly used tool is Veil-Evasion, which can turn an arbitrary script or piece of shellcode into a Windows executable that will evade detections by common antivirus products.
